

Your Dental Plan Includes Smile for Health®-Wellness

Enhanced benefits for people with certain chronic medical conditions and gum disease

If you have been diagnosed with one of the following chronic medical conditions, you are eligible for enhanced dental benefits through Smile for Health®-Wellness.

- Cerebral Vascular Disease (including Stroke)
- Cardiovascular (Heart) Disease
- Diabetes
- Lupus
- Oral Cancer
- Organ Transplant
- Rheumatoid Arthritis
- Subperiosteal Implant
- Osseous Surgery

Research continues to uncover connections between certain chronic medical conditions and periodontal (gum) disease. By receiving the proper gum disease care at the dentist, you may experience improvements in your overall health.

With Smile for Health®-Wellness, you may be eligible to get your gum disease treated at no cost by a network dentist.² But remember, if you go to an out-of-network dentist, you may owe a balance and be billed for that amount.

Enhanced Benefits

How to Register

You and any eligible dependents can register to use Smile for Health®-Wellness any time after your insurance plan's effective date. Here's how:

- Visit [UnitedConcordia.com/GetMDB](https://www.UnitedConcordia.com/GetMDB) from your desktop or mobile device
- Sign into *MyDentalBenefits* (or create an account)
- Click the **Wellness** tab at the top menu
- Click the **+Add a new condition** and complete the fields as y as possible.
